

Raymond Recorder

VOLUME 36

FRIDAY OCTOBER 29th 1943.

NUMBER 28

Initial Beet Payment November 6th.

The initial payment on 1943 beets will be made November 6th, and this year total will be far in excess of any initial payment yet made being estimated at \$1,500,000. An open season for digging and organization of labor for the best results resulted in about 85 p.c. of the total beet tonnage being delivered before the cut off date. Trucks and wagons were going in a steady stream from receiving stations after the harvest started and quite a number of farmers were finished their beet harvest before October 1st. No official report has been made but it is expected that the initial payment on the crop will be \$7.50 per ton. Growers generally are disappointed at their tonnage. Light beets, and many small ones have resulted in a greatly reduced tonnage for the season, and where it was expected that 325,000 tons or more would be harvested, it looks like the total will not reach more than 285,000.

Trouble has also been met in storage. Weather conditions were fine for everything but storage, but seemingly the abnormally high temperatures were too much for the beets, and wilted beets near the bottom of the large piles started them heating and a considerable loss is reported from the piles at both factories and also from the storage piles at other points. Every effort is being made to cope with the situation and reduce spoilage to the minimum. Both factories are having a good run, but the ruined beets present some definite problems in the processing of the juices and a slowing up to some extent is unavoidable.

Beets are still coming into the sheds, but deliveries now are merely a dribble compared with the start of the harvest and a few more days will see everybody finished and the fields cleared.

Mr. and Mrs. Chas. S. Matkin of Magrath were Raymond visitors on Monday.

Pte. Ronald Christensen of the U.S. Army Air Force stationed in Missouri, is home for a few days leave. He arrived here Sunday evening.

NEWS NOTES

TRAIN TODAY AND FLY TOMORROW

V. Williams of Cardston was a Raymond visitor Saturday last.

Percy Gregson of Cardston was a Raymond visitor Thursday and Friday of this week.

The Canadian Army Overseas is made of two corps, one of three infantry divisions, the other of two armored divisions. Besides there are large numbers of ancillary or corps troops.

Mrs. Ike Orgil returned the end of the week from a three weeks stay in Calgary with her husband who has been in Calgary for two months for the Canadian Sugar Factories.

Mr. and Mrs. DeVere Hunt who have been at the Hancock Dairy for six months past have severed connections with the Dairy and returned to Cardston Saturday to make their home there.

Many of us have been touched this week by the Milk for Britain sales people. Well, it's for a good cause and the few cents we donate will do more good that way than another bar or bottle of pop would have done us.

Charles Zabo, a 54 year old Hungarian was killed at the No. 8 Bombing and Gunnery School Tuesday morning when a truck loaded with cement backed into him and ran over him. He had just commenced work that morning. His wife and family are living in Hungary.

The sugar Factory took delivery this week of a large caterpillar, rigged up with a mammoth shovel, which it is reported will take 5 to 6 tons of beets at one bite. This "cat" raises the shovel over it and dumps the beets in the car. When car loadings start from the large storage piles this machine will be used for the loading, and if it handles 6 tons at a bite, it won't take long to load all of the beets.

Windows Of Fame

Raymond windows of fame we have to be reminded occasionally of some of them especially those with whom we are training camps in Canada and the United States decorate many shop windows and cause a great deal of interest amongst the people going up and down the streets. It is really surprising how many men and women from Raymond and immediate district are in the service, and as the collections grow all of us are asking "who is that?" The faces change but very little, but

"THE SUN DIAL" by H. I. Phillips from
New York Sun, September, 20, 1943.

WAR BOND SALES POINT

I'm buying a bond for a freckled kid
Who lived down the street a way—
A boy with a dog just a while ago—
A name on a list today!

I'm buying a bond for a barefoot lad
Who only a short time back
Was romping the fields of the old home town,
But died in a far attack!

I'm coming across in the memory
Of youngsters who left the town
With laughter and jokes & their heads held high
To take on the scrappers' frown;
The kids who were down in the swimmin' hole
The boys who'd be out on the sandlot's now—
Or played in the High School show—
Except that it can't be so!

I'm signing for all I can take aboard;
I thought I had done my share
Until in the home town sheet today
I saw "Johnny Adams" there;
He'd brought me my paper every night,
A child on a bike bright red;
He's riding the path to the house right now
I thought... but the lad is dead!

I've read all the ads in the War Bond drive,
The work of the writers slick;
But, God, when I think that it takes that stuff
It leaves me a little sick.
The picture of boys on a village green
Or trooping across the mead
Who now lie under a cross-filled field
Is all that we ought to need.

I listen to speeches o'er mikes galore
That tell of the War Bond drive,
But all I hear is the cannon's roar—
The whine of a power-diver;
The speeches, the music, the hallyloo—
All leave me a little cold—
For I know a boy who just died for me—
And couldn't be quite that old!

The Hollywood stars will cavort this day—
"All out for the bond drive show!"—
The creators gather to do their stunts
But I will not have to go;
These noisy appeals I will not require;
Enough is the inner call
That comes with the thought of the home town kids
Who died ere they lived at all!

A duty? A noble and handsome act
This taking of War Bonds? Bunk!
Since when was investment on sure things
A sacrifice? Scrap such junk!
I'm doing a painless and little thing;
One sales point alone rings true:
My debt to those lads from the old home town—
Who, asked for their lives, came through!

NEWS NOTES

25 Boys still wanted for the Air Cadets. Act Now.

Tell us, how the dawn breaks without falling and the night falls without breaking.

Rotary luncheon was held Monday as usual and a good time is reported by the members attending.

Bishop J. O. Hicken of the Raymond First Ward was the speaker at the 2nd Ward Sunday evening and gave a very interesting talk on his recent visit to the semi-annual Conference in Salt Lake City. His closing remarks were the telling of three experiences of guides on Temple Square mission and individuals whom they had met.

Lethbridge had a double tragedy Monday when Mrs. Carl Fraser, aged 29 was shot by Charles Kelley, 43, who then turned the gun on himself. They both died in the kitchen of the Fraser home. The shooting was witnessed by Mrs. Fraser's aged mother, and her own three children. Witnesses stated that Kelly had been drinking when the shooting occurred.

are selling their cows because of a feed shortage, and this just when our local Cheese Factory is going good and people are getting excellent prices for their fluid milk. Such is the uncertainty of things.

With jams and jellies now being rationed by the Government and with the difficulty in purchasing canned fruit, the Matron of our Junior Red Cross Crippled Children's Hospital would like the members of our Branches to know that donations of these commodities would be most acceptable. It is essential that we provide our little patients with lots of fruit and we are therefore very anxious that our member be given the opportunity of donating a jar when they are preserving. May we ask that you kindly be good enough to make this known among the people of your district as we would certainly appreciate receiving as many donations as possible for it is going to be very difficult to purchase same in the future.

We would like our members to know that our hospital requires approximately 60 one-gallon tins of canned fruit per month, if we are to provide the fruit which the Medical Superintendent and the Matron include in the diet given to the crippled children.

Any donations by the Branches may be shipped direct to the Junior Red Cross Hospital, 1009-20th Ave. W., or to the Division Headquarters for delivery there.

May we hope that this appeal will have your sympathy and support.

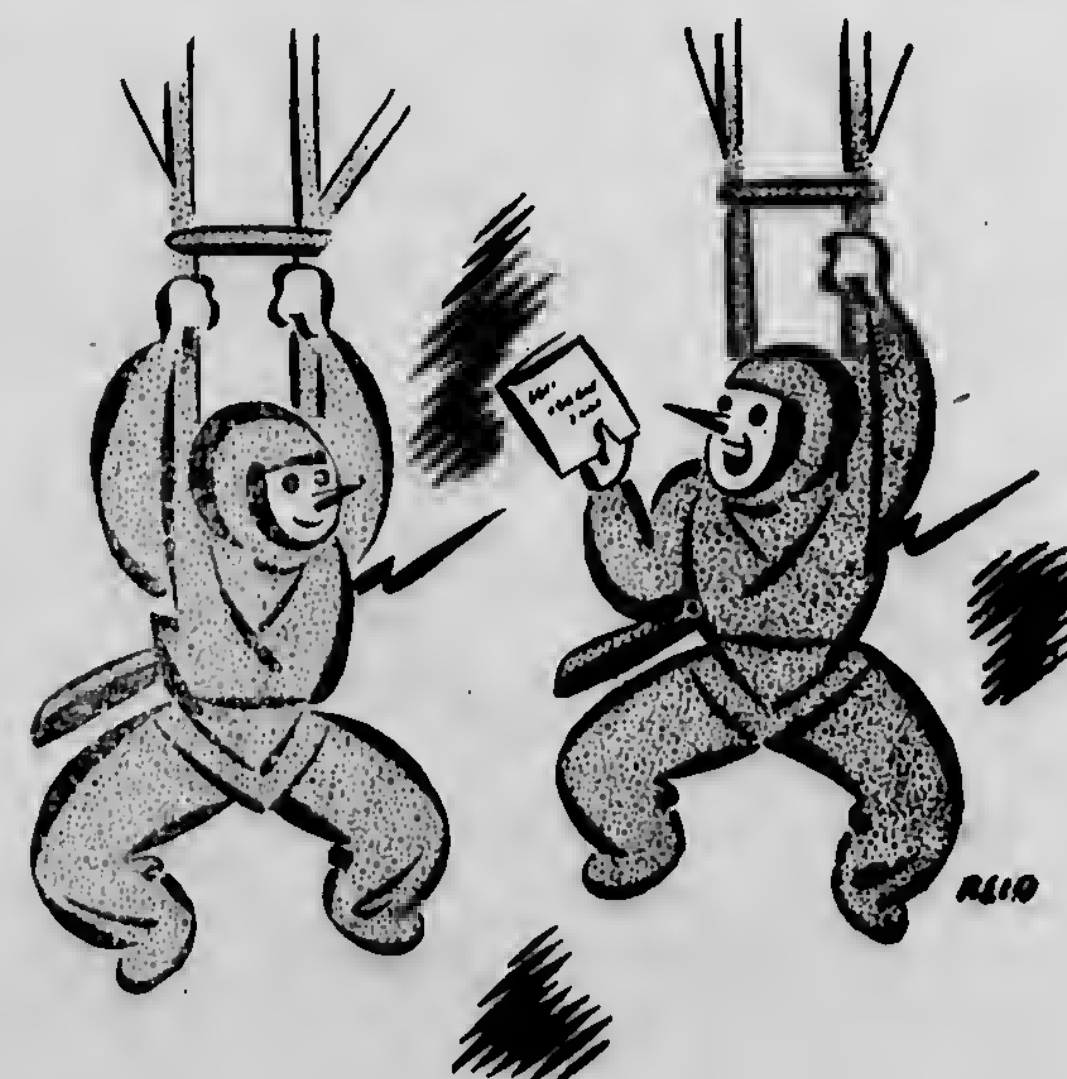

D. H. Tomlinson, Commissioner
Alberta Division of C.R.C.A.

Overseas parcels must be mailed by November 1st. Don't delay and thereby cause inconvenience to post office staffs and disappointment to those over there.

General Sir Bernard Montgomery has paid Canadian troops one of the highest compliments. Speaking of the Sicilian campaign, he said, "You handled yourselves according to the best and highest standards of any army in this very short, model little 39-day campaign. It has been said that it was a great honor for the Canadians to be in the Eighth Army, but I say that it was a great honor for the Eighth Army to have the Canadians."

HAVE YOU BOUGHT YOUR BOND?

The fifth Victory Loan is over the half way mark by quite a bit, and the selling days are getting fewer now as the heat is turned on for the final drive. Have you bought your bond yet? Is it as much as you can afford to buy? Have you bought one for each member of your family or aided them in getting one? Wednesday night's paper told of an Italian family in Ontario who had bought one for each member of the family, and this family numbered two-

nty-two. There's a real mark to shoot at.

It would be really too bad if Canadians failed in the objective of the Fifth Victory Loan. It would be too bad for a number of reasons. For one thing we have exceeded the quota of every other loan and we should do so this time. We have the money, the question is, have we the will? For another thing, Allied war stock has been going up in value every day recently. Are you going to let your brother, father, son or sweet-heart feel any discouragement at all because we fail in supplying the armaments, ammunition and equipment for war? Another thing, if we push the Loan over the Top as we should do, it will be a great stimulus to our Allies in their efforts, to our factories and war plants in their work, and the men and women in the service, who are looking to us for support.

Every Canadian with red blood in his or her veins should support this Loan to the limit. It is not a question of politics, nor a question of party. It is a question of patriotism. Are

you a good Canadian, or are you one of the "let George do it" kind, who want Victory but want someone else to pay the price. If you are, we say shame on you. You stay at home and reap the harvest of good prices for your work, whether a wage earner or a producer, you enjoy liberty and freedom, while other Canadians, possibly your own relatives, pour out their blood to guarantee you that freedom, and yet you lack the intestinal fortitude to deny yourself a little and buy a bond. Just what kind of a citizen are you anyway? Then some question the possibility of these bonds being redeemed. Fellow Canadian, if these bonds will keep Canada free, so that we can enjoy liberty in all that it means, they would be a good investment if they were never redeemed. But they will be redeemed. All the natural resources of our Canada, one of the richest nations in the world, is behind them. If you have money, and nearly everyone has, these bonds are just as good things that must be sent over, Canada will continue to be, as

DR. R. D. SINCLAIR,
Dean of The Faculty of Agriculture,
University of Alberta.

Friend of Alberta Farmers Recommends Victory Bonds to you...

DR. R. D. SINCLAIR has combined practical and academic knowledge of agriculture in a unique degree. Born on a farm near Innisfail, Alberta, he was one of the early students of the School of Agriculture at Olds, and was a member of the first class to graduate from the College of Agriculture at the University of Alberta in 1918.

After spending some time in editorial work with a well known farm magazine, Dr. Sinclair joined the staff of the Department of Animal Husbandry of the University in 1922. He obtained his Master of Science degree at Iowa State College and later went to Aberdeen, Scotland to secure his Ph.D.

Dr. Sinclair was appointed Dean of the University's Faculty of Agriculture in 1942. He is recognized as Canada's outstanding authority on swine production and is known personally to thousands of Alberta Farmers.

Dr. Sinclair urges farmers to buy Victory Bonds. He says:

"During the past four years of war the products of Alberta farms have made a substantial contribution to the food supply of the United Nations. But the need for weapons of war as well as food is still supremely urgent; one without the other will not finish the job.

"The Fifth Canadian Victory Loan provides further opportunity to make a financial investment in the war effort. The Bonds bought now will help to hold the farm lands of Alberta for Alberta farmers and, at the same time, provide the reserve capital which can be used for improvements when victory comes.

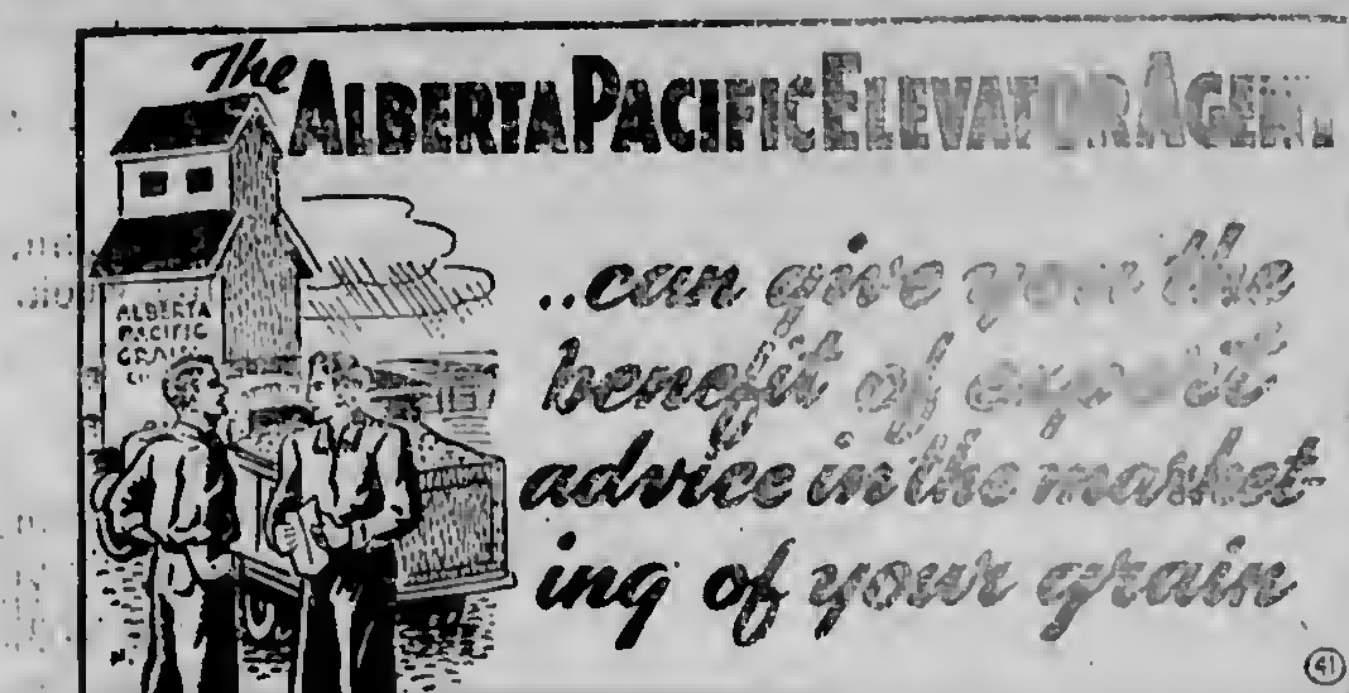

"As one born and raised on an Alberta farm, I appeal to the farmers of the Province to buy Bonds of the new Victory Loan to the limit of their financial resources."

she is today, the provider of many of these things because we have them to spare. There will be an influx of settlers to settle the unoccupied lands of our rich country and enlarge the national wealth. Our mines, our forests, our oil resources, all these will be multiplied many fold, and we will be rich in the goods of this world. Our nation will redeem all her bonds, and you and I, if we support the loan and make it the success it should be, will feel a real satisfaction in having done our little bit to hasten victory for free dom and democracy.

Take the other side. You doubt your Government, you doubt all Allied governments, you doubt the men and women in the service, and you would just as soon have dictatorship by Germany or Japan, as liberty under the Union Jack. You say no. Well, face the facts. You won't buy a bond to assist in securing our present liberty and adding to it, and when you refuse to buy a bond then you are proving by your actions that dictatorship by the Axis would be alright for you. Again if every member of Allied nations felt as you do, we would have been defeated long ago and Nazism would now be secure.

If you have had any hesitation about buying a bond, pinch yourself and see if you are alive. If you are alive and still feel hesitant about it, look at our windows of fame, see the parents, the wives, the sweet-and women in the service and hearts and children of the men think of the sacrifice they are paying, and then if you still don't want to buy, go into retirement, or to a concentration camp, or somewhere with those of your own ilk who are not interested vitally, in an Allied victory. The money raised by these sales is just as vital as the goods they produce and the equipment they provide for keeping the men and women in the front lines and keeping the wheels of Victory rolling on. You may have reasons for not investing in oil wells, or gold mines, or other things, but you have no reason at all for not investing in Victory bonds, and every other fellow Canadian expects you to do it.

Come on, Raymond, let's put this loan over, and let every true Canadian in Raymond and district have a hand in doing it.

There are more than 13,000 women in the Canadian Women's Army Corps, now in its third year.

A.M.A. BRANCHES TO URGE LICENSE CUT

Demands for lower motor car licenses in Alberta are expected to be renewed when annual meetings of branches of the Alberta Motor Association are held next month.

The A.M.A. has made it clear that it will continue to press for

lower licenses in 1944. It already has been given assurance by Premier Manning that consideration will be given these representations when the 1944-45 budget for the province is considered by the government.

The motor association has suggested that attention of M.L.A.'s to claims of motorists for lower licenses should be

drawn as early as possible, in order that they may support these claims when the legislature meets early in the new year.

NATIONAL

SELECTIVE

SERVICE

A WORD OF CAUTION

TO MEN OF MILITARY AGE AND TO THEIR EMPLOYERS

National Selective Service Civilian Regulations authorize the Minister of Labour to require that male employees furnish their employers with evidence that they have not failed to comply with National Selective Service Mobilization Regulations (i.e., the Military Call-Up).

It is intended that an order will be issued shortly, requiring employers to carry out the necessary check on their male employees, and to report any men who do not produce the required evidence of compliance.

The check up will cover every male employee who has reached the age of 18 years and six months and has not reached his 38th birthday. The man will have to show evidence in one of the following forms:—

- (a) A man discharged from the Armed Forces following service during the present war should have his discharge certificate. A discharged man who has not a certificate should apply for one in the following manner:—

Army—District Officer Commanding, Military District in which discharge took place.

Air—Records Office, R.C.A.F. Headquarters, No. 5 Temporary Building, Ottawa, Ont.

Navy—Secretary of Naval Board, Ottawa, Ont.

- (b) A man who has responded to a direction from a Registrar of a Divisional Mobilization Board, to report for medical examination under Mobilization Regulations, should have either a certificate of unfitness or an order for postponement of military training from the Divisional Registrar. (A man entitled to either document who has lost his copies should immediately apply to the Divisional Registrar who issued the original, for a duplicate.)

- (c) A man who has been rejected on application for voluntary enlistment in the Army since the beginning of the war, should have a certificate showing that he was rejected through medical unfitness. (If a man entitled to such a certificate does not possess it, he should apply to the District Military Headquarters of the District in which he applied for enlistment, in order to procure the necessary form.)

- (d) A man in the designated classes who has not reached his 38th birthday, who was married as at July 15th, 1940, or who,

having been married before that date, is a widower with children, must be prepared to furnish evidence, such as a marriage certificate or birth certificate of a child, to show that he was married before July 15th, 1940, and that he is now either married or is a widower with children.

- (e) A man who has reported for enrolment in the Army under an Order—Military Training issued under the Mobilization Regulations and who has been rejected should have a certificate showing he was rejected through medical unfitness. If a man entitled to such certificate does not possess it, he should apply to the District Officer Commanding the Military District in which he was rejected.

- (f) (i) A man who is not subject to the Mobilization Regulations because he is an enemy alien who has not made application for naturalization may obtain a certificate from a registrar of his Divisional Mobilization Board indicating that the Mobilization Regulations do not apply to him and such certificates must be obtained by all such enemy aliens:

(ii) A man who is an alien and neither a national of Belgium, Czechoslovakia, The Netherlands, Norway, Poland, the United States nor Yugoslavia and has not applied for naturalization may be relieved of his duty under Mobilization Regulations, but he gives up his right to future Canadian citizenship after the war; where such men have applied for such relief and been granted such status, certificates will be issued by registrars in appropriate cases.

This caution is issued to facilitate compliance with the order which is proposed. A reasonable interval will be allowed to permit men to provide themselves with whatever document, as referred to above, they may be entitled to hold.

Employers are requested to give notice of this proposal to their male employees, to facilitate the operation of the order when issued.

INFORMATION

For Western Farmers Selling Feed Grains to Eastern Farmers

WHEAT • OATS • BARLEY

1. Wheat, up to 14 bu. per authorized acre and one car of oats and/or barley over the quota may be shipped.

2. Every seller must apply to the Canadian Wheat Board, Winnipeg, for a permit to ship each carload before loading for shipment.

3. Cars shipped will be inspected at Winnipeg for grade and dockage. On the basis of sample inspection, certificates will be issued by the Board of Grain Commissioners, for cars held "too full" for regular inspection. The Inspection Certificate establishes the grade and dockage.

4. Dockage up to 3% is allowed. Dockage above 1% cannot be charged for, and payment will not be made for the difference in weight between 1% and the actual dockage.

5. Elevator scale tickets or railway weights must accompany the bill of lading. Freight charges are to be paid by the farmer in Eastern Canada.

PRICE INFORMATION

On oats and barley the price per bushel to be charged the eastern farmer is the ceiling price (or the cash price if it is lower), basis in store at Fort William or Port Arthur.

GOVERNMENT SUBSIDIES AVAILABLE

As announced by the Dominion Government, the subsidy of 10c per bushel on oats and 15c per bushel on barley applies on oats and barley sold by any western farmer to a farmer or feed dealer east of Fort William-Port Arthur. Special application must be made to the Canadian Wheat Board, Winnipeg, in order to secure payment. Special forms for this purpose will be provided by the Canadian Wheat Board on request. These subsidies will also be paid on community sales between farmer and farmer in western Canada, provided the farmer delivers the grain over an elevator scale and meets other requirements of the Wheat Board.

FARMERS URGED TO SAVE SEED GRAIN

Farmers throughout Eastern Canada are urged by the Agricultural Supplies Board to save all varieties of seed grain particularly oats and barley for planting in 1944. With the production of grains this year in the Eastern provinces being substantially below that of 1942, especially so in Ontario, and more live stock to feed to meet the high demand, there is a danger that farmers may feed all their available grain including some that may be suitable for seed. Many farmers may still have grain from the 1942 crop on hand which may be suitable for next year's sowing the Board said. If they have they advise keeping it for seed.

While it will be possible to obtain supplies of seed wheat

FARMERS AND FARM WORKERS

If Your Farm Work has Slackened for the Winter, You Are Needed Elsewhere in Essential Employment

Highly essential work—very important in Canada's war effort and for the welfare of the Nation—is threatened with shortages of workers. One of the few sources of men available for other high priority jobs is those men on the farm who will not be needed at home during the Fall and Winter. Heavy needs must be met in many lines—producing vitally essential forest products; in base metal and coal mining, in food processing, in railway track maintenance. If you live on a farm and are not needed at home during the Fall and Winter, you are urged to answer this national appeal.

Farmers engaged in essential work during the off season will be allowed to return home when needed. Also, those on postponement under Mobilization Regulations will continue on postponement while in approved essential work during the slack season on the farm.

Please answer this vital call NOW.
